22/8/6 - 1461

AGRICULTURAL OFFICER,
NORTHERN DISTRICT,
HAIFA.

Tulkarm Agricultural Inspector submitted to me an application for seeds intended for "Anti Doodeh Plots Demonstrations".

His application was disregarded owing to the following facts :-

I looked through your circular of 21st September, 1934 No. AN/39/1/7, it seems that while plot "C" should have been under legumes in 1935/36 according to the last paragraph of art. 3. Actually this plot was under cereals followed by legumes, as stated on proforma "B" attached thereto.

If you have any information submitted to you on plot "C", previously, I think it should be disregarded as these are not the results of the proper rotation designed.

However, the Inspector himself inconsciously reports the failure of his legumes this year.
